

PLAN

Suggested by Mr. Leighton
Is Being Met
With the Approval of Depositors.

Effort Will Be Made to Have Receiver of the Bank Discharged.

Depositors to Receive Twenty-five Per Cent of Their Money Each Month and the Bank to Be Reopened.

There is still a hope entertained that the tangled affairs of the Lima Savings Bank & Trust Co. may be straightened out without the services of the receiver who was appointed to take charge of the institution yesterday afternoon. A plan to secure the discharge of the receiver has been promoted by president W. W. Leighton and as the proposition has so far met with the approval of the bank's creditors there is reason to believe that it may be carried to a successful issue.

President Leighton's proposition was submitted to quite a number of the stockholders last evening and all to whom it was submitted attached their names to a paper as a proof of their approval of the plan submitted to them. The plan contemplates the discharge of receiver George Quinn and the reopening of the institution by the old officers. The agreement signed by the depositors is that the bank shall be re-opened for business and that the depositors shall demand the payment of only 25 per cent of the deposits now in their credit in the bank and they shall receive 25 per cent per month until they are paid in full.

Mr. Leighton's friends and advisers state that with the assistance of his father-in-law, Mr. J. N. Dewey of Toledo, and by the collection on paper held by the bank that will mature during the next three months, every depositor can be paid in full and the bank can resume business and save the cost of discounting its assets and evade the expense of a receivership and the attending litigation.

Mr. Leighton returned to the south side this morning with the paper which was signed by some of the depositors last night and has been busily engaged all day, securing additional signatures. His father-in-law has returned here from Toledo and is assisting in every way he can to promote Mr. Leighton's plan of adjustment.

PLEASANTLY ENTERTAINED.

Miss Goldie Shull entertained in a very pleasant way at her home on Madison avenue last evening. Games and music were enjoyable features of the evening's entertainment. The town guests were: Misses Helen Rambo, Hattie Kelly, Josephine Hall, Lucille Ludwick, Martha Blank, Myrtle Kinyon, Vera Walsh, Messrs. Lester Frysinger, Clarence Naus, Cecil Lowmister, Homer Shaw, and Harvey McCune. The out-of-town guests from Cridersville and Unionport were: Misses Ida Blank, Pearl Naus, Orla Blank and Messrs. Edward Burden, Harvey Shaw, Moses Burden, Albert Peter, Clear Burden and Roy Shaw.

FEW THOUSAND BACK AT WORK.

Hoisting Engineers Said to Have Been Secured From the United Mine Workers.

Chicago, Nov. 2.—Word reached Chicago today that 4,000 mine workers have returned to work in the soft coal mines at Rutland, Minn., and Marquette, Minn., engineers having been secured to take the places of hoisting engineers on strike at those points.

Three thousand men at Spring Valley, Ill., also reported to have been employed. The engineers are said to have been recruited from the ranks of the United Mine Workers.

CASITORIA.
The Kid You Have Always Bought.
Remember the name—Don't take any other.

Just a little too far and the woman who reaches over the cliff for the coveted flower goes crashing down into the abyss below. Just a little too far and the woman, who, day by day, neglects to cure the womanly diseases which weaken her is prostrated upon a bed of sickness. No woman should trifle with the diseases peculiar to her sex. Neglect today means a worse condition tomorrow.

Dr. Pierce's Favorite Prescription is a safe and reliable remedy for the cure of diseases peculiarly womanly. It establishes regularity, drives encumbering fluids, heals inflammation and ulceration and cures female weakness.

"My wife, Mrs. Mary Jones, has been taking your medicine and received great benefit from it," writes Mr. Lee W. Bates of Springfield, Va. "She was troubled with female weakness, bearing-down pains, severe back aches, and had a constant burning in the bladder. Tried all the remedies we could hear of, but they did no good. Finally we wrote to you and my wife commenced taking your Favorite Prescription. Took ten bottles and is in better health than before in a long time. We call it a wonderful remedy and a great blessing to all who are thus afflicted."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

INSISTS

On Selling Out the C. H. & D. System.

Another Telegram Today Turns the Pere Marquette Road Over to the Erie.

P. J. Zimmerman a day or two ago emphatically denied that there was a sale or one in prospect of the C. H. & D. system to the Erie as published in the Wall Street Journal. Today the rumor looks up again seriously. This time it comes from the Pere Marquette to the Erie, and is told in the following telegram to the morning papers from Chicago:

"Officers of the Erie railroad today announced that the Pere Marquette system has been absorbed by the Erie for \$75,000,000 and would in the future be continued as a part of that system. The big deal was negotiated and financed by the J. P. Morgan interests. The purchase price of \$75,000,000 is to be paid to the stockholders of the Pere Marquette in stock of the new consolidated company on the basis of one and one-quarter shares for every share of the old stock. The consolidation gives the Erie an opportunity to expand in the territory between Chicago and the Atlantic coast and the Ohio valley and the Canadian boundary.

ACKNOWLEDGE IT.

Lima Has To Bow to the Inevitable. Scores of Citizens Prove It.

After the reader has read the public statement of this representative citizen of Lima given below he naturally, and honestly come to his conclusion. A remedy which cured years ago which has kept the early in good health since, can be relied upon to perform the same work under similar circumstances. Read this.

Mr. J. M. McClintock, of 741 north West street, Lima, O., says: "For eight or nine years I had weakness of the back and kidneys. There was a tired feeling and a heavy aching pain in the loins, and while it was not severe enough to confine me to the house it was a continual source of worry. I tried different remedies, but nothing seemed to do me the least good until seeing Doan's Kidney Pills highly recommended. I procured a box at McVie's drug store and began using them. I felt benefited almost at once and from the results obtained I have no hesitation in recommending Doan's Kidney Pills which I believe to be all they are represented. (The above statement made Oct. 16, 1901.)"

On Sept. 6th 1901, Mrs. McClintock added: "I can now state that the cure I referred to six years ago has been permanent. I have had continued freedom from kidney trouble." For sale by all dealers. Price 50c. Foster-McMillan Co. Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

RUNS

Selected By the Conductors
And a Choice

Of Three Fell to Boys on the North End.

Glancey Had the First Pick and Will Be Found on Nos. 4 and 5.

Durbin and Wise Were Next in Line and the Other Runs Fell to Men on the Southern Division.

The difficulty which suggested itself in adjusting the conductors of the C. H. & D. with the runs, since the through trains were established, has finally been satisfactorily met and the north end men were given their choice of three, while the southern division got five, with that final understanding the men were permitted to take their choice, according to rank and the three on this division include Glancey, Durbin and Wise, in the order named.

Glancey has selected to take trains 1 and 5, the former north bound at 1:40 p. m. and the latter south bound at 12:40 p. m.

Durbin takes trains 2 and 3, the former north bound at 8:15 a. m. and the latter south bound at 4:15 p. m.

Wise gets trains 7 and 12, the former south bound at 2:10 a. m. and the latter north bound at 2:30 a. m.

Mr. Hap Will Remain

Trainmaster Scott, who has established himself as trainmaster at this point, has selected A. R. Upp, who has been filling the position of time-keeper under Supt. Fletcher, as his chief clerk, and Mr. Upp will not accompany the rest of the force to Dayton. Supt. Fletcher and his chief clerk Ruppel will go to Dayton to take up their permanent residence tomorrow.

Foreman Ira Beebe has tried out a number of new firm men lately and has succeeded in getting hold of five who promise to stick and make good. Several others failed and will have to seek other fields. Those who are now on the pay roll include Wm. Bridge, W. F. McGinnis, J. Dean, C. C. Boxy and J. H. Kniser.

CASE

Of Alleged Bigamy Reported

By the Police.

Two Prisoners Taken to Wapakoneta

And an Officer Sent There From This City to Bring Them to Lima.

Amos Sisson Charges That One Offic De Varo Is His Wife and That She Is Now Married to Carl H. De Varo.

Policeman Frank Grant was sent to Wapakoneta this afternoon to take charge of two prisoners who were in custody in that place and who are known in the affidavits filed in mayor's court in this city as Carl H. DeVaro and Mrs. DeVaro. The affidavits have been sworn to by Amos Sisson, of this city, and although the woman in the case is known as Mrs. DeVaro Sisson, claims and alleges in his affidavit that she is his wife. The affidavits charge the two prisoners with unlawfully cohabiting but the information given to the police indicates that a charge of bigamy may be filed against the woman after she is brought back to Lima. Sisson claims that she is his wife and that she was formerly known as Offic Mueser and the records in the probate judge's office at the court house show that Offic Mueser, not previously married, was wedded to Carl H. DeVaro, by Rev. G. W. Carr, on June 9, 1903.

It is claimed that they have been living near Westminster. A complaint was also made against them at that place and a constable who arrested them took them to Wapakoneta instead of bringing them to this city.

Wanted For Burglary.

Chief Mills went to Munster, Ind. today to take charge of Thomas J. Kelly, a young man whose arrest he caused in that city. Kelly is wanted here on the charge of burglary, the police claiming to have evidence

against him for attempting to burglarize the residence of Charles Humple, on north Elizabeth street, in this city, a few weeks ago.

CLOTHES A CURSE.

Revolution of the Means of Killing Many South Sea Natives.

The influence of the missionaries has certainly been for the most part beneficial to the natives of the south sea islands. The constant antagonism of the less reputable traders and the beach combers, the lost human souls and jetsam of the south seas, to the missionaries is shining evidence that their work is for the real good of the natives.

But two things they have brought in the life of our bygone brown wards of the coral beaches which are certainly calamitous. These are clothing and by consequence pneumonia.

In the good old days the rains beat upon the shining oiled shoulders and back of the half naked as harmlessly as on the well pressed plume of the wild duck, but now the cheap cotton shirt or white jacket clings wet and clammy to the skin, the quick chill strikes through the blood, and the end comes with appalling swiftness and certainty.

The gauntly beribboned, absurd little chip hat pinned to the great mass of long black hair and the immodest holu of the women and the tightly buttoned white barber's jacket above the bare brown legs of the men really reach the climax of absurdity, and what is worse, they are unwholesome both for health and morals.

But such is the costume of the saved. Well, that they be truly saved, for they have made a fair start in their "civilization" clothes to test quickly the power of their new religion.—Atlantic.

IMITATION PEARLS.

The Chemical Process by Which They Are Produced.

Among all precious stones few are so extensively imitated as the pearl.

The real article is a silvery white, iridescent gem extracted from the pearl oyster. The genuine pearl is really an unperfected egg of the oyster.

Its imitation is arrived at by a chemical process. The fabric employed in the manufacture is called "vesuvian denton." The base of this compound is prepared by throwing into water of ammonia the brilliant scales of a small river fish called the blay.

The scales are first carefully washed and put to soak in water which the people like film falls away and forms a sediment at the bottom of the vessel. This sediment is worth to the manufacturer 15 an ounce.

White wax of mutton-oil grade and fine forms part of the mixture proper for the more important and expensive imitations, such as those made to imitate the rare oriental pearls which reach fabulous prices.

The emerald is another stone which is cleverly imitated. A perfect emerald is the rarest stone in the world, though the trade ranks it after the ruby and the diamond. The best emeralds come from Peru, the imitations from France. The real article becomes electric by friction, and herein lies the difference between it and the imitation.

Canivorous Trout.

If trout are large enough they, like snakes, will seize almost any living thing that comes in their way when hungry. I have one pond in which are two islands. On one of these are some fair-sized trees. On one occasion a full grown rat started to swim across. Before it had got halfway a twelve-pound trout rose and took it under. I have never then, young mice and rats, when the farmers have been chasing. They are very fond of these, and they take the largest frogs with avidity. I have never seen them eat a toad. I have known them to take young water hens, and young birds of any kind thrown on the water are instantly made away with.—London Field.

The Moon and the Weather.

The moon is the most powerful agent in producing the tides on the earth. It also produces some slight variations in the earth's magnetism. So far as science has been able to investigate there is absolutely no change in the weather which can be attributed to the moon, although half or more of mankind seem to believe that the moon does have some control over the weather. All such errors, including the time for planting gardens and for going fishing, are new superstitions, the survivals of an age of ignorance.—St. Nicholas.

Permission and Advice.

A prominent New York congressman used to tell about his encounter with a Washington newsboy on his first visit to that city. A stranger in the city, the congressman naturally found some difficulty in finding his way about. Seeing an alert looking newsboy standing on the corner, he said to him, "My boy, I want to go to the White House."

"Very well," replied the lad patronizingly: "you may go, but don't stay more than half an hour."

Influence.

"Which would you rather have, in influence or affluence?" asked the earnest man.

"Influence," replied the practical politician. "Give me that, and the affluence will come easy."—Cincinnati Commercial Tribune.

Not His Experience.

"Did you ever notice that it's easier to come easy go with money?" "No, I always thought it came hard, and it seems hard when it goes."—Cleveland Plain Dealer.

They Ought To.

"How's you getting on with your 'rithmetic, Lou?" "I done learned to add up de oughts in 20 figures better 'n de 'ollars."

A QUEER ANIMAL.

The Ermine Is One Thing in Summer and Another in Winter.

The ermine is a queer animal. It is one thing in winter and another thing in summer. That is a strange statement, but it is true, for in winter the animal's fur is as white as snow and is called the ermine. In summer its fur turns reddish brown on the upper part of the body and a light yellow on the lower part. The animal is then known as the stoat.

This change is quite familiar to naturalists, but not to unscientific people, and the ermine and the stoat are therefore generally regarded as distinct animals.

The fur of the ermine is much valued and is in great request. At one time it was a mark of great royalty, and the state robes of judges and magistrates were lined with it as an emblem of purity.

The ermine is so cunning in its ways that it is almost as difficult to catch as it is to "catch a weasel asleep." In fact, about the only way to capture it is to mark its course from its home and then strew mud in its pathway. When the dainty, fastidious little animal reaches the point in its path where the mud is strewn it will lie down and subject itself to capture and death rather than smother one of its snow white hairs.

HOW TO STAY YOUNG.

Will Power a Large Factor in Keeping Away Deceitfulness.

How old are you? The adage says that women are as old as they look and men as old as they feel. That's wrong. A man and woman are as old as they take themselves to be.

Growing old is largely a habit of the mind. As a man thinks in his heart so he is. If he begins shortly after middle age to imagine himself growing old he will be old.

To keep oneself young depends on whether a matter of will power. The fates are kind to the man who hangs on to life with both hands. He who lets go will go. Youth is slow only to tackle the tedious.

Ponce de Leon searched in the wrong place for the fountain of youth. It is in oneself. One must keep one's self young inside so that while the outer man may sicken the inner man is renewed day by day.

When the human mind ceases to exert itself, when there is no longer an active interest in the affairs of this life, when the human senses, reading and thinking and doing, the man, like a blasted tree, begins to die at the top.

You are as old as you think you are. Keep the harness on. Your job is not done. Milwaukee Journal.

BUNYAN'S TOMB.

Barrel Placed in England of the Author of "Pilgrim's Progress."

John Bunyan's tomb is at the burial ground of Bunhill fields, usually called "Bunhill fields," probably from the quantity of bones which, as Bunhill told us, were transported thither in 1530. This is now closed as a cemetery, but the faces of tombs, shaded by young trees is a green oasis in a black part of London.

Near the corner of the Bunhill Chapel is a white flower, lying upon a high modern altar tomb, marks the grave of John Bunyan. He died of snow hill from a cold taken on a missionary excursion on Aug. 31, 1688, aged sixty.

Macaulay in one of his essays says: "The spot where Bunyan lies is still regarded by the Nonconformists with a feeling which seems scarcely in harmony with the stern spirit of theology. Many Puritans, to whom the respect paid to Bunyan Catholics to the tombs of the saints seems childish and superstitious, are said to have begged with their dying breath that their coffins might be placed as near as possible to that of the author of 'Pilgrim's Progress.'"

New Guinea Cannibals.

The Papuan cannibals of New Guinea regard all deaths as having a violent cause. Whenever a native dies from sickness it is believed that the soul was resulted from some pain. In order to detect the murderer, therefore, parts of the dead person are distributed among the members of the household and after a time examined by a certain official in the community, who might be said to correspond to an American coroner, district attorney, judge and jury all combined. If any part of these various robes has changed to an unnatural color its possessor is immediately executed and eaten by the other relatives.

She Never Forgot the Lost Fire.

An Atchison man lost \$5 in taking change, and when he went home told his wife about it. This happened six years ago, and she has never forgotten it, often telling him what luxuries he could afford if he hadn't lost the money. Last week their son dropped \$2,000 in a poor investment. "Don't say a word to him about it," she said to her husband, "Poor boy, he feels bad enough as it is."—Atchison Globe.

THE SUPREME COURT WILL SOON DECIDE

Whether or Not Polls in Cincinnati and Cleveland Shall Be Closed at 4 Instead of 5 O'clock
---Democrats Brought Action.

Columbus, O., Nov. 3.—The supreme court will speedily determine whether or not the polls shall be closed in Cincinnati and Cleveland at 4 p. m. instead of 5 p. m. it having been brought before that tribunal in the form of a motion to file a petition in writ to the circuit court.

The supreme court took the consideration of the motion at 10 a. m. Several days ago J. W. McHenry, democratic candidate for sheriff and it is thought a democratic candidate for an office in Cuyahoga county brought suit against Frank F. Gensick, chief deputy supervisor of elections, and also against the judges of elections in precinct A, fourteenth ward in the city of Cleveland to compel them to keep the polls open until 5 p. m. next Tuesday.

For several years past the polls in Cincinnati have closed at 4 o'clock. The last legislature passed the Chapman law which placed the city of Cleveland in the same classification as Cincinnati, and the election officers announced that the polls at Cleveland would close at 4 p. m. Judge Babcock in common pleas court Wednesday held that the law was unconstitutional and that the polls must be kept open until 5 p. m. in the same as in all cities of the state except Cleveland and Cincinnati. The case was rushed to the circuit court and that body entered a pro forma decision of affirmation without hearing any testimony in order that the case could be taken at once to the supreme court.

KIBBY

Corner Legislators Planning to Play Foot Ball

Wedding of a Popular South Side Girl.

"Jolly Twelve" Ready for a Series of Social Functions.

Idlewild Club Have Farewell Social in Honor of Departing Member—South Side Items of Interest.

In an effort to keep up-to-date, and with a desire to become young again, the members of the Kibby Corner legislature, at their meeting last evening, resolved to organize a football club and challenge the High School eleven for a game, after that aggregation returns from their game at Sidney. It was quite difficult to find a volunteer for center and a full-back, so the chairman drafted Samuel Smith and Bill Ashton—but the draft was protested, and other arrangements were finally made.

After a secret, but stormy session of nearly three hours, in which some of the members argued everything from football, politics and science to religion, the following lineup was agreed upon, subject, of course, to small change—for pocket money—by the players:

Left-end Dan Cramer
Left-tackle "Daddy" Kraft
Left-guard Ven Sworeagan
Center Chas. Mooney
Right-guard George Fisher
Right-tackle L. S. Gilmore
Right-end False Alarm Reece
Quarter-back Aaron Albert
Left-half Wm. Jennings
Right-half Dave Drake
Full-back Jo. Askins
Goal-back Dan DuVal
Punt-back "Bill" Garman
Wing-tackle John Mack
Line-tackle J. P. Drennan
Line-tackle Elmer Barth.

It was a difficult matter to choose an umpire, owing to the fact that high positions and soft snaps in the legislature must be held by men who have retired from actual labor, and every member was caught working during the summer. After another siege of discussions of financial and physical things, "Uncle Josh" Williams was finally named as umpire.

A resolution was adopted to do away with the "dinky cap," "wide ants" cissy uniform, and all members but the left-half will wear tighties.

After the proposed game, Napier will entertain the High School boys with a story of what he observed at the world's fair.

Look out for hand-bills, board-bills, as-bills and duck-bills announcing coming events.

South Side Lady Wedded.

Last evening a popular south side young lady became the bride of one of Lima's most worthy young men. The principal parties to this wedding were Miss Bertha Remagen and Mr. Frank Stevens, of west High street. The bride has made her home with her sister, Mrs. Jack Myers, of Broadway, for several years, and has many friends to wish her happiness. The room is, and has been for several years, a driver for the Wells-Fargo Express Co.

Social Club Reorganized.

The L. T. S. C. re-organized yesterday afternoon, and changed the club name to the "Jolly Twelve." Mrs. D. Bailey, at whose home the meeting was held, was chosen president Mrs. Effie Osburn, secretary; but owing to the stringency of the money market, a treasurer was chosen—or possibly the ladies forgot the part of the election.

A very refreshing lunch was served, and the afternoon spent in a manner which did justice to their new name. Two new members were initiated—

Honored Departing Member.

At the home of Mr. and Mrs. Fred McKinnon, on east Circular street, Tuesday evening, former members of the Idlewild club tendered a farewell reception to Roy Stockton, a clerk at the Cunningham drug store. Mr. Stockton will leave in a few days for Florida and the club saw to it that their last meeting, for a while at least, was a pleasant one. Those present were: Kenneth Reed, Harold French, Jack Anderson, Ray Stockton, Mr. and Mrs. Robert Dingledine, Mr. and Mrs. McKinnon, Mr. and Mrs. J. Rambo and Miss Esco Wertheim.

Brief Notes.

Amos Gigante and son Carl, formerly of this city, but now of Pittsburgh, stopped over and visited south side friends today, enroute home from Montpelier, Ind., where he has been employed in a steel mill.

Mr. and A. P. O'Dell of Kibby street, are entertaining their son, F. P. O'Dell, and wife, of Laadsville, Ind. A train of six coaches, carrying Italian and Syrian immigrants, passed through over the Erie this morning headed for Chicago.

Rev. Clarence Mitchell, of east Kibby street, left this morning for Lock Haven, Pa., where he will hold a series of revival meetings.

After visiting his sister, Mrs. W. A. Wagner, of south Elizabeth street, Henry Plazeman has returned to Fort Recovery.

Mr. and Mrs. M. Miller of east Elm street, have a fine little daughter to gladden their home.

Mr. and Carl Montague, of west Kibby street, are also blessed with a new daughter.

Brain fever has prostrated Miss Lillian Freilinger, of south Pine street.

Joe Spoker, of south West street, is on the sick list.

Granville Beall, who was called to Lima on account of the death of his brother Edgar Beall, last week, went to Celina this morning to visit friends.

A SURE THING.

It is a fact that nothing is so certain as death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanFleet, of Shepherdstown, W. Va., says: "I had a severe case of tuberculosis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It is infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by H. F. Vortkamp, Druggist. Trial bottles free. Reg. sizes 50c, \$1.00.

TWO EXCEPTIONS.

One of Emperor William's favorites is a young man named Doerflinger, a theological student, says Ambassador Charlemagne Tower. He found his way to the war lord's friendship in an interesting manner. William, walking one day in the street near the palace, met the student and said to him abruptly: "Where do you come from?" "I am a Berliner," was the reply. "Pshaw," said the emperor, "the Berliners are good for nothing." "I know two Berlin boys who are exceptions to that rule," returned the student. "Whom?" "Your majesty and myself." The emperor commanded him to attend at the palace.—Chicago Chronicle.

MONOLITH PROBLEMS

MYSTERY OF THESE STRANGE STONE MONUMENTS OF THE PAST.

A Theory That All of Them, Those on the American Continent as Well as Those in the East, Were Built by the Ancient Phoenicians.

Among the greatest mysteries in the history of the past human history on earth the monoliths that stand in various parts of the globe have always been chief.

These strange stone monuments, generally rude, with hardly any sculpture, but wonderfully large in size, are scattered everywhere. The most famous of them are the cromlechs, such as those in Stonehenge, in England. Others are found in the western part of France, in the northern part of Germany as far as the Oder river, in Denmark and in Sweden.

Northern Africa, Madagascar and Asia, from Mount Sinai and the Caucasus to India, all have some here and there.

Lately they have been discovered even in Siberia. There are several places in Japan where such stones stand.

Others have been found in North and South America. Among the most wonderful and mysterious of them all are the vast, almost terrifying, stones, rudely sculptured, that have been found on Easter Island, in the Pacific ocean.

The mystery as to what these stones meant was not the only puzzle. The greatest puzzle was how primitive people, without knowledge of engineering and without known appliances, could have moved and erected such giant blocks, some of which weigh as much as 250 tons. In many districts where the great monuments stand there are no stones of such size to be found in the earth. Consequently they must have been transported from places long distances away.

For many generations—ever since men have spent any time in thinking over those matters—scientists have puzzled their heads over the monoliths in vain. Whether they chiseled them as all being the same or whether they divided them into different classes, they remained the same riddle.

In more recent years, however, there has been a systematic study of all the monolith monuments of the world, and as a result a novel theory has been advanced.

It is that one race—that of the Phoenicians—erected all these monuments.

Of course if this is correct it means that history will have to be revised, for it would show that the Phoenicians once knew all about the whole globe and that they had visited America and Asia long before modern days.

The first thing that led to the assumption that the Phoenicians had raised the monuments was the observation of M. Leysier, a French archaeologist, that almost all the monoliths were to be found near the mouths of great rivers or along their courses. This pointed to a people that used ships.

Now, the Celts were never strong on the water. Their boats were primitive, being mostly of wickerwork covered with hides, and they were unable to move any distance from land in these clumsy and unseaworthy contrivances.

Consequently, when the question arose as to what race was advanced in navigation in that early time when these monuments were put up, the answer naturally came that the only race known to be a race of sailors and merchants then was the race of the Phoenicians.

And if they were the Phoenicians how did they come to reach America? They had colonies on the islands of the western Mediterranean and even in the islands of the Atlantic ocean, as history proves. It is not hard to imagine that they may have found their way to America. Some archaeologists are even willing to believe that they reached America by way of the lost Atlantis, that legendary continent that is now sunken somewhere in the Atlantic ocean, if it ever existed.

At any rate, the theory that the Phoenicians were the erectors of the monoliths of the world to commemorate rate discoveries or for religious purposes still later on gained strength through the discovery of a great upright stone near the river Loire, which has Phoenician words engraved deeply on it. Translated, these words say: "On this spot was slain our brave comrade."

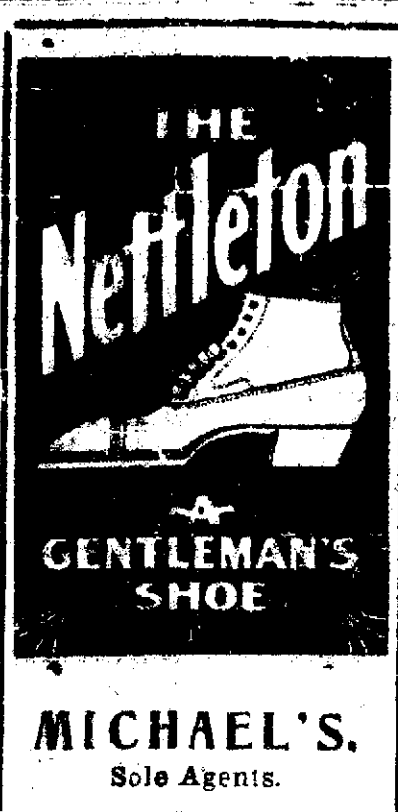

In San Luis, in Bolivia, is one of these stones, which has on it the engraving of a foot printed and a snake with its head raised. The footprint is a well known Phoenician symbol of death and is found on many stones that cover ancient Phoenician burial sites. And the snake with head raised is another acknowledged Phoenician emblem. Exactly the same symbols as those on the South American stone have been found on a stone in central France. New York Press.

Yorkshire Moors.

There is no better walking to be had within the four seas than across a Yorkshire moor. The air is intoxicating. The sun's heat may be tropical elsewhere. Here it is ever tempered by breeze if not by high wind. One is knee deep in honey sweet heather; the grouse rise if numbers at your feet and sweep down the wind with the speed of an express bullet.—Temple Bar.

The best thing Josh Billings knew of was a "first rate wife," and the next best thing was a "second rate one."

THE STAGE.

Among the near at hand attractions at the Faurot Opera House is "The Smart Set," the largest and most expensive organization of colored artists in the world which comes tonight. The company numbers 50 people and includes S. H. Bidley, Joan Bailey, as well as the wonderful colored prima Donna, Mile. Harbo Hopkins.

Marion Henry Smart of "The Smart Set," the greatest of all colored theatrical organizations, is a colored woman of unusual personality. Booker T. Washington holds her up as the most beautiful woman of her race in America. Miss Smart is a cultured and gifted woman.

A new drama of the coast of Maine, is entitled "Blood Tide," and will be presented at Faurot's Opera House on Saturday, matinee and night. So strong a play of rural life has not been given to the American stage since the production of such noted plays as "The Old Homestead," "Shore Acres," etc. "Blood Tide" is by Edward Waite and Emma Louise Grant, writers of uncommon ability, and staged under the direction of A. E. Nash, a manager who has never disappointed his audience.

"Blood Tide" tells a story of pure heart interest, absorbing, dramatic and forceful. Clever and whimsical comedy abound, and is so closely interwoven into the action that laughter and smiles follow rapidly upon scenes of deep emotion. The company presenting the characters of the play has been carefully selected with a view of their respective parts, being artistically portrayed. Handicraft and massive scenery has been provided with a lavish hand and each of the four acts of "Blood Tide" is a marvelous example of modern stagecraft.

Beck's Money and Tar is different from all other remedies offered for the relief of coughs, lung and bronchial troubles. It contains Antiseptic properties that destroy the germs, and solvent properties that cut off the poison, allowing it to be thrown off, moving the bowels gently. Cures Croup, Whooping Cough and Colds in one night. Sold by H. F. Vortkamp's drug store.

COULDN'T TRUST THEM.

Illustrative of the czar's lack of confidence in the Russians who surrounded him is the following incident: Czar Nicholas I. had some trouble with his back and his physicians ordered massage treatment. But Nicholas declared himself unable to find a single man whom he dared trust for the simple operation. He sent to Frederick William IV, of Prussia, asking that a few non-commissioned officers of the Prussian garrisons might be allowed to wait upon him. The application was granted and the officers acted as massagers and returned to Berlin laden with rich presents. "I know my Russians," Nicholas told them. "So long as I can look them in the face everything is well, but I will not risk letting them work behind my back."—Chicago Chronicle.

You cannot cure piles by external application. Any remedy to be effective must be applied inside, right at the seat of the trouble. Manzan is put up in a collapsible tube, with a nozzle, so that it reaches inside and applies the remedy where it is most needed. Manzan strengthens the blood vessels and nerves so that piles are impossible. Manzan relieves the pain almost instantly, heals, soothes, cools and cures. H. F. Vortkamp.

Keep it Dark.

Kissing is coming once more to the face of public discussion. But what's the use of making such a noise about it? There is only one proper way to discuss a kiss.—St. Louis Republic.

PHYSICIANS PRESCRIBE IT.

Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung trouble as this great medicine. There is no other cough medicine so popular. Contains no opiates or poisons and never fails to cure coughs and colds. Refuse substitutes. H. F. Vortkamp and Wm. McVillie.

Of Hospital Commission at Marietta, Today.

Date For Visit of the Commission to This City May Be Determined Upon at Once.

Hon. Walter B. Richie is at Marietta, O., today, meeting with the other members of the commission appointed by Gov. Herrick to select a location for the proposed new state hospital for the insane. The object of the visit of the commission to Marietta is to look over the proposed site and investigate other inducements offered by that city for the new institution.

Lima will probably be the next place visited by the commission and the citizens here may as well don their hostess' clothes at once. The date for the visit to this city will probably be determined upon by the commission while it is at Marietta.

ROOSEVELT'S
Insult to Farmers, Farm Laborers and
Mechanics.
THE CENTURY MAGAZINE, Vol. XXXV, No. 4.
RANCH LIFE IN THE FAR WEST.

Peril and hardship and years of long toil, broken by weeks of brutal dis-
cipation, draw haggard lines across their faces, but never dim their reck-
less eyes nor break their bearing of defiant self-confidence. . . .
When drunk on the villainous whisky of the frontier towns, they cut mad
antics, riding their horses into the saloons, firing their pistols right and left,
from boisterous lightheartedness rather than from any viciousness, and in-
dulging too often in deadly shooting affrays, brought on either by the ac-
cidental contact of the moment or on account of some long-standing grudge, or
perhaps because of bad blood between two ranches or locations; but except
while on such spree they are quiet, rather self-contained men, perfectly
frank and simple, and on their own ground treat a stranger with the most
wholesome hospitality, doing all in their power for him and scorning to
take any reward in return.

Although prompt to resent an injury, they are not at all apt to be rude
to outsiders, treating them with what can almost be called a grave courtesy.

THEY ARE MUCH BETTER FELLOWS AND PLEASANTER COMPAN-
IONS THAN SMALL FARMERS OR AGRICULTURAL LABORERS; NOR
ARE THE MECHANICS AND WORKMEN OF A GREAT CITY TO BE
MENTIONED IN THE SAME BREATH.

THE COMMONER, OCTOBER 24, '04

Read the Appeal of Hon. W. J. Bryan to Demo-
crats as to Their Duty on Election Day.

A WORD WITH DEMOCRATS.

EVERY MAN IS RESPONSIBLE FOR HIS INFLUENCE, BE IT SMALL
OR GREAT. EVERY DEMOCRAT WHO VOTES FOR PARKER VOTES
TO DEFEAT ROOSEVELT. EVERY DEMOCRAT WHO DOES NOT VOTE
FOR PARKER CONTRIBUTES TOWARD THE ELECTION OF ROOSE-
VELT. ON EVERY QUESTION UPON WHICH JUDGE PARKER'S POSI-
TION IS OPEN TO CRITICISM, PRESIDENT ROOSEVELT'S POSITION
IS WORSE: WHERE THEY DIFFER AS THEY DO ON MANY IMPORT-
ANT QUESTIONS, PARKER IS RIGHT AND ROOSEVELT IS WRONG.
ROOSEVELT FAVORS A HIGH TARIFF; PARKER FAVORS TARIFF
REFORM. ROOSEVELT FAVORS A STANDING ARMY OF 60,000 AT
THE MINIMUM; PARKER FAVORS A REDUCTION OF THE ARMY.
ROOSEVELT HAS BROUGHT THE RACE ISSUE INTO NATIONAL
POLITICS; PARKER WOULD REMOVE THE RACE ISSUE FROM POLI-
TICS.
ROOSEVELT STANDS FOR A COLONIAL POLICY; PARKER FAV-
ORS INDEPENDENCE FOR THE FILIPINOS AND WOULD MAKE THE
PROMISE NOW.
ROOSEVELT TOOK INTO THE WHITE HOUSE A SPIRIT OF WAR;
JUDGE PARKER WOULD SUBSTITUTE FOR IT A SPIRIT OF PEACE.
FOUR YEARS MORE OF ROOSEVELT WOULD MAKE ECONOMIC
AND INDUSTRIAL REFORM MORE DIFFICULT; JUDGE PARKER'S
ELECTION WOULD CLEAR THE WAY FOR ECONOMIC ISSUES. LET
NO DEMOCRAT BY VOTING AGAINST PARKER OR BY REFUSING TO
VOTE, TAKE UPON HIMSELF RESPONSIBILITY FOR FOUR YEARS
MORE OF ROOSEVELTISM.

will again be a cabinet officer, he is
practically part of the government,"
says the New York Herald in sub-
stantiation of the charges against Mr.
Cortelyou calmly forgetting that the
assertion "will again be a cabinet of-
ficer" is an admission that Judge Par-
ker will be defeated. —Philadelphia Inquirer.

Not at all, old man. Cortelyou will
be postmaster general from about No-
vember 15th until March 4th at high
noon. Then President Parker will
give him a long rest.

OUT OF DEBT.

The taxpayers of Allen county
should not forget that Allen county
under the capable and economical
management of a democratic board of
county commissioners does not owe
one dollar.

Compare that with the city of Lima
which for years has been ruled by re-
publicans and has as a result—over
a million of debt staring her in the
face.

If you don't believe it get out your
tax receipts, or ask that good man
Tommy Jones the county treasurer,
to tell you what the rate of taxation
in the county is and also what the
rate is, and when you get it, you
will then and there make up your
mind never to vote for republicans
in control of the business of the
county.

LAW ENOUGH, IF EXECUTED.

Judge Parker is exactly right: the
area, namely of the people for com-
binations in restraint of trade is to
put into power a man whose charac-
ter, whose power and whose influ-
ence are ample pledge that he will
endeavor to the utmost to save the
people from oppression by making the
most of the unused remedies and ap-
plying them rigorously to cases which
they present to him. The people have
been hoodwinked enough by dema-
gogues, clamoring for more law.
There is a lot of law to smash the
trusts if only honest and resolute men
be put in office to enforce it.

Every workman knows that Par-
ker is a friend of labor, and would
enforce the contract labor law, if
elected President.

VOTE FOR PARKER.

PENNSYLVANIA'S MACHINE.

Pennsylvania will vote a republi-
can majority of 200,000. Says Senator
Parker: Why didn't he make it 500,000?
With 675 fraudulent registra-
tions in a single division of a Phila-
delphia ward in which the total num-
ber of registered names is but 277, it
would seem that 200,000 majority in

no account to the government there-
for.

It is no wonder that the adminis-
tration of the new commission under
Admiral Walker is early developing
shame and trouble.

CREDIT DUE GARNER.

With the close of the state cam-
paign it is proper to give credit where
due for the magnificent fight the de-
mocracy has made under the able
leadership of Hon. Harvey C. Garner,
state chairman. Mr. Garner has given
all his time and energy, and a great
deal of his personal means has been
unselfishly given to carrying on the
fight, his committee having but lit-
tle money with which to combat
Dick's check book. With the excep-
tion of rare visits to his home in
Greenville, and the remarkable tour
with Hon. W. J. Bryan, Mr. Garner
has not been able to pay a visit to a
single county in this, his congressional
district, since the campaign started,
his efforts in behalf of the state and
national tickets being at the expense
of his own candidacy. The democrats
of the fourth district will appreciate
his unselfishness in this respect by
giving him a rousing majority.

His work as state chairman has
been such that with the closing of
the campaign there is not a discord-
ant element in the democratic party
in Ohio—the first time in years, and
with that condition to start into the
next state campaign, there is no rea-
son why Ohio should not wheel reli-
ably into the democratic list.

HE HAS PARESIS.

IT IS rather late for the Democ-
rats to attempt to carry Garb to the in-
famy. Like Port Arthur, the white
flag is out and the infamy will sur-
render to the Republicans next Tues-
day. If they had practiced economy
as they should have done for years,
they would not be out of grub over at
the county house.—Republican-Ga-
zette.

It is unfortunate for the Ginn &
Co. author of the above that the coun-
try infamy is no longer a home for
those afflicted with paresis. His
ridiculous will therefore have to enter
main him admission to the state hospi-
tal at Toledo or exercise some re-
straint over him until we have one
out near this city for his personal
use.

The democrats of this county are
not going to surrender the county in-
famy next Tuesday, and they are
going to keep the harder there for the
unfortunates just as full as any is
sent anywhere in the United States.
Tommy, like the above raving,
that there is "no grub over at the
county house" could only come from
a mentally deficient and morally
degraded.

The many who are forced by con-
ditions to seek a home in the Allen
county infamy, will always find
here the necessities to provide them
with a full stomach, even if they could
not get a "full dinner pail" while on
the outside.

HE KNOWS HIM.

Colonel Ethan Allen, a prominent
New York republican and chairman
of the liberal republican national
committee in 1872, a close friend of
James G. Blaine, and one of the most
active of his supporters in the pres-
idential campaign of 1884, will vote
for Judge Parker, and in an interview
today he gave his reasons for so do-
ing.

AFTER WALDORF'S SCALP.

In the interest of party harmony
and perpetuation of the republican
organization in this county, President
Roosevelt, it is said, is to be ap-
peared to by a large list of politicians im-
mediately after election to remove from
office George P. Waldorf, collector of
internal revenue for this district.

The complaint, which, it is said,
will be made against the present col-
lector is pernicious activity in local
political affairs.
The protest against Waldorf will be
circulated immediately after election.
It is known that a great many of
President Roosevelt's earnest sup-
porters and ardent admirers in this
county have already signified their in-
tention of signing the petition.—Tole-
do News-Record.

Waldorf must have developed anoth-
er "Boss" Quail whose duty it is to
see that no one who ever worked un-
der the Hanna banner, and received
an appointment for his party loyalty,
shall remain in office.

As in this county so it will be in
Toledo. The Lucas county Quail will
act under the direction of Roosevelt
and Parker.

THE PANAMA SCANDAL.

William N. Cromwell counsel for
the republic of Panama has informed
President Roosevelt that the method
employed by Admiral Walker and
General Davis on the isthmus have
only served to anger the people, or
Panama. Our Panama scandal has
begun early indeed. Admiral Davis
or its members, is a brother-in-law
of Senator William H. Aldison, a
lowa, chairman of the senate commit-
tee on appropriations. He had more
than anybody else to do with the
substitution of the Panama route for
the Nicaragua route. The Nicaragua
bill had no provision for a commis-
sion of high station commissioners.
The Spooner act for the Panama route
had provided for such a com-
mission. Admiral Walker had been
chairman of the old canal commis-
sion which granted the government
route for two years and actually work-
ed only six weeks, spending money with
scandalous profusality and render-

NEW YORK FOR PARKER.

New York has been a democratic
state since 1885, when the demo-
cratic party was united and possess-
ed of an efficient organization. The
party is in good fighting trim this
year, and has a better organization
than it has had since 1892. The de-
mocratic candidate for president is a
native New Yorker, a man of the
highest character and of great ability
to win carry his own state, as Til-
den did, and as Horatio Seymour did.
His opponent is a New Yorker, too,
and unlike Judge Parker, his popular-
ity is not to be demonstrated. Mr.
Roosevelt has never been a strong

hood. The young man was found at
three o'clock last Saturday morning
in Madison Square Garden lying on
the ground suffering from the effects
of nearly two ounces of laudanum.

In his pocket was found a scrap of
paper bearing lines from the "Bridge
of Sighs." On the back of the slip
was written: "Although I couldn't
get a job, for God's sake, 'New York-
ers,' give me a decent burial." It
was taken in an ambulance to the
New York Hospital, restored to con-
sciousness and given into the care
of the police, who yesterday ar-
raigned him on the charge of attempt-
ing suicide.

"Everything which a man could do
to gain employment I tried," said
himself yesterday, "but it seemed as
though there was not a chance. I
could not beg and I would not steal.
I came here with \$25 in my pocket.
I did not see how I could fail, for I
was willing to begin with any kind of
employment and work my way up. I
lost cheaply and saved all the money
I could on my expenses. Day after
day I went about the city. I have
had some experience in bookkeeping
and some in business. At first I ap-
plied for a position as bookkeeper. I
answered advertisements and went
to every place that I could.

I arose at early hours in the morn-
ing, standing in line for hours at a
time. For every position there were
from fifty to a hundred applicants.
I failed to get clerical work. They
tried the factories, making the rounds
day after day, willing to do anything
I applied to all the department stores.
It was always the same story. Fifty
persons for every task and no work
or no. I thought once that I had a
good chance to get a position as
waiter in a cheap restaurant. I was
first on the line at daylight. I was
not lucky enough, though. Another
man got into the cellar by some way
of which I knew nothing and won
the chance to work.

In one instance I found fifteen
men waiting for a chance to wash
dishes at \$4 a week. Yes I missed
that opportunity, too.
In one establishment where I had
tried to get work I saw within my
reach a great pile of handkerchiefs
which I could have easily taken without
anybody being the wiser. I had only a
few cents in my pocket. I hurried
away as fast as I could. At my usual
time was some late Thursday night. I
spent Friday tramping the city with
out food and looking for work. I
walked about thirty miles and asked
in fifteen places for employment in
vain. I had written to a millionaire
on Wednesday asking for a loan of
\$10. I thought I might hear from
him because he knew some of my
relatives, but I received no response.
That added to my despair. I had a
small quantity of laudanum which
I had purchased several months ago
for use in an infant. I went to Mad-
ison square late Friday night and
slept on a bench for a time. Every-
thing of value which I had owned
had been pawned. I took the last
amount early in the morning. Two
men who saw me lying there went
through my pockets and stole one of
my cuff buttons from my shirt, but
when they found the poison they
notified a policeman. That is how I
happened to be in prison."

Magistrate Mayo held Jones in \$500
bail for a further examination.

FAILURE TO GET WORK.

From the way republican spell
binders are barking about universal
prosperity under republican tariff
laws one would imagine that the eas-
iest thing in the country is to get
paying work to do. That is some-
thing, Foraker, said any man could
do, in his speech, Monday night.
Hardly a day passes that does not
furnish a story illustrative of sad-
contrary conditions.

Read this story of real life con-
tained in the New York Herald of
Monday, October 17.
Insight into the difficulty of obtain-
ing work in this city was given yes-
terday in the Jefferson Market Police
Court by the story of a young Virgin-
ian who was arraigned on the charge
of attempting suicide. He admitted
that he had been driven to try sel-
f-destruction because he had for a
month sought employment in vain
and was penniless and starving.

Joseph R. Jones was the name he
gave, a title which he admits is ficti-
tious, and from a memorandum found
in his pockets it is believed that his
home was in Marshall, Fauquier
county, Virginia.
He is twenty-four years old, strong,
broad shouldered, and sound in mind
and body. His manner is pleasing
and he speaks with a marked South-
ern accent. He seems to have more
than an ordinary education and, ac-
cording to his own story, left a well-
known college in his sophomore year
three years ago. Jones came here a
month ago from Harford, Conn. He
had taught school in that neighbor-

Lima Teams Are Matched

For a Contest

Of Foot Ball Tuesday of Next Week.

Collegiates Will Make Their First Appearance With Strong Opponents.

Coach McLaughlin Is Getting the Boys Familiar With Signal Work and the Game Will Be a Warm One.

Lima vs Lima

Such is the call for a hot foot ball game on election day at the driving park grounds. Two fast and heavy weight teams will test their strength and science and the college representatives will be given their first chance to measure themselves against a team that has been against the real thing several times this season.

The Collegiates have had several practice trials of the signals arranged by Coach McLaughlin and demonstrated that they are a fast bunch. They repeat the fact that they have their later and take care of and will not go into the game confident of having a easy time of it. Their opponents from the game have a set of signals that will keep the collegiates guessing and the crowd at the grounds next Tuesday afternoon an assured of some good game back on the part of Lima's choice of athletes.

This afternoon the collegiates and the high school teams were both in action at the ball grounds and in order that every body will have an equal chance of seeing the game of foot ball next week, the game will be played at the driving park which will be a very early start for the players and officials.

The college match will be playing the game in the evening at the driving park and will be a very early start for the players and officials. The latter would be a great drawing card and the high school teams will have a chance to see the game of foot ball next week, the game will be played at the driving park which will be a very early start for the players and officials.

Lima high is looking forward to a hot and fast game at the driving park tomorrow afternoon. Ben Livingston and Steve Smith will be the main attraction and will be a very early start for the players and officials. Some of the steel stocks rallied to the best and Amalgamated Copper and Erie an off to the lowest. The closing was irregular and rather dull.

DAVIS

Keeping the Rails Warm Down

In His State

Wants Tariff Reduced on Those

Special Things Which Foster The Trusts Now Supporting Roosevelt.

Fifty Thousand Officers Drawing Government Pay Going Over Country Urging People To Keep Them in Power.

Keiser, W. Va., Nov. 3.—When candidate Davis reached Judge today the West Virginia Central machine shops were closed down for twenty minutes, that the men might hear him. Mr. Davis said when President Roosevelt came in power times were prosperous, but that ever since then times are growing worse, very much worse. "Under McKinley," said he, "there was an overflowing treasury, containing a surplus of fifty-four million dollars. Now there is a deficit of forty-one million dollars, and the amount is growing larger. The republicans told you four years ago that if good times were to continue they must be kept in power. This was done but the good times have not continued. They are now telling you the same story over again. It is not a fact though that good times depend on republican rule. The figures show that between the years 1860 and 1869 under the democratic rule the country enjoyed the most prosperous period. Mr. Davis who followed, appealed to state pride as one reason to support Mr. Davis.

Charges Corruption.

Keystone, W. Va., Nov. 3.—In speaking here to an audience which filled the music hall, Mr. Davis said the treasuries were all kept up by the tariff. "Although," said he, "as you know I am not a free trader." "I think the tariff on special things that foster the trusts should be reduced but without fear of contradiction I will say that every one of the two or three hundred trusts in this country are republican. The beef trust, the steel trust are working for republican success. Mr. J. P. Morgan who it was said some time ago, was favorable to Parker, is now giving his money and giving it freely and doing everything he can for the election of Roosevelt.

Have Quit Business.

Piedmont, W. Va., Nov. 3.—At this place Mr. Davis in addressing a crowd from the rear of his car said:

There are over one hundred thousand federal office holders in office today. One half of them are going over the country, while under government pay, urging the people to keep them in power. There never was a time when there were so many cabinet officers going over the country making political speeches.
